

Women and Girls in STEM Forum 2025

aiming for Cybersecurity Awareness!

Join: How and Why?

- Design solution for a real-world **Challenge**
- Represent your country at the **Women and Girls in STEM Forum 2025** in October in Brussels, Belgium
- Get your idea seen across **Europe**
- Meet students from more than 30 countries and connect with an international community

What is the Challenge?

Grab your teammates and get creative! You're invited to come up with a cool idea for a tool that helps people stay safe online. You'll design your tool and pitch your concept to show how it works and why it matters.

How it works

1. Form a team of maximum **4** girls
2. Pick a **cybersecurity topic**. It can be phishing, password security, online privacy, or any other!
3. Use our **Design Thinking** slide deck to shape your idea and turn it into a creative, ready-to-launch design!
4. Record a **30-second** elevator pitch video
5. Submit your slides and video by **30 June 2025**

What we're looking for

- Bold and creative ideas
- Tools that make a real impact
- Smart thinking on ethics, privacy, and sustainability
- Clear and convincing pitches

Ready to jump in?

More info and materials available soon!
Each group will be accompanied by a **school teacher** representative.
Finalist teams will showcase their pitches live on stage in **Brussels** this **October**.
